

Flow Dynamics Touring in September/October 2007

To support the release of the acclaimed new self-titled Flow Dynamics album on Freestyle Records, Dave McKinney aka Flow Dynamics is doing an exclusive run of European shows including the UK, Spain, Hungary, Austria, Belgium, France, and Germany.

Flow Dynamics has caused quite a stir across the globe with his feel-good blend of funk, beats, breaks, and classic party tunes. Support across the globe has been incredible with many of the world's top djs giving his music heavy rotation in the clubs, on the radio, and at major festivals. DJs who regularly play Dave's tunes include Quantic, Fort Knox Five, Askillz, Beatfanatic, DJ Spinna, Kenny Dope, Gilles Peterson, Russ Dewbury, Nick Thayer, Mr Scruff, Ashley Beedle, Dj Regal, Nickodemus, Krafty Kuts, Freddie Cruger, and Andy Smith.

Dave has several releases on ubercool UK label Freestyle Records, and a series of remixes on Funk Weapons and Fingerlickin Records. With more releases out soon on Freestyle, as well as mashups coming for Bombstrikes UK, Flow Dynamics also has upcoming remixes for Fort Knox Five, Beatfanatic and many more UK and Australian artists.

Flow Dynamics is now set to bring the party vibe across Australia, with a very special live mashup DJ set of funk, soul, hip hop, latin, disco, beats, and breaks. Not content to just play a normal DJ set, Dave is using a stack of computer and midi equipment to create a technically complex but always funky live mashup DJ set for the dancefloor. You can expect to hear lots of exclusive edits, live remixes and general mashup madness including Flow Dynamics favourites, old classics, and the latest tunes from around the globe. Funk party styles!
